**Track Training – Prove Competency**

**Taking the Pain out of Competency Management**

# What can Thoosa do?

Examine your competency requirements and offer you a prioritised list of staff that need to be trained first.

Provide evidence that your staff training complies with legislative and statutory requirements.

Present a two-year forecast of when your staff competencies will need to be reviewed.

Assess the training impact when a member of your staff leaves a department or the organisation.

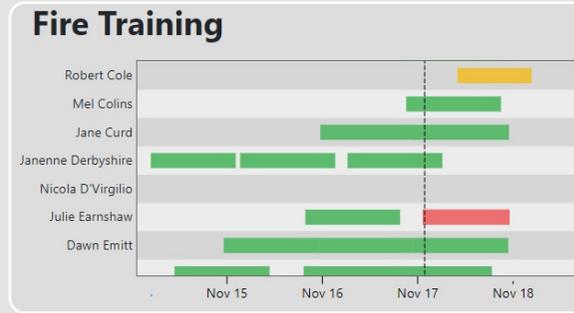

Build project teams or advise which staff could be moved between departments to cover gaps.

Cut costs by identifying your organisation's true training needs and thereby avoid wasteful spending.

# What is Thoosa?

Thoosa is a cloud-based competency management solution that automatically assesses and informs you of your qualification needs. It allows you to easily visualise your staff's training and compliance risks.

Thoosa takes the pain out of competency management and helps you achieve and maintain legal compliance.

It also allows you to arrange training events and keeps your staff notified for you.
